EXPERIENCE

Senior Product Designer

Mobify

 04/2025 - Present  Islamabad, Pakistan

- Designed end-to-end UI/UX for **Gen AI** and **utility mobile apps**.
- Created wireframes, prototypes, and final UI from scratch.
- Worked with developers for smooth implementation and testing.
- Produced AI-based assets (**images, videos, filters, effects**) using trend research.
- Improved UX, user retention, and revenue through user and market analysis.

UI/UX & Graphic Designer

Maanz AI

 07/2024 - 03/2025  Islamabad, Pakistan

- Led end-to-end product design for **Praid AI** and **Placement AI**, turning complex AI workflows into intuitive user experiences.
- Analyzed BRD, FRS, and SRS to define scalable and user-focused designs.
- Designed pitch decks, product videos, and event banners for **GITEX** and investor showcases.
- Collaborated with marketing on localized visuals and **social media material** that increased conversion.
- Contributed to business growth by tracking usage metrics and optimizing based on data.

Lead UI/UX Apps

Terafort Limited

 03/2023 - 06/2024  Islamabad, Pakistan

- Managed UI/UX for **apps and SaaS** with **500M+** global downloads.
- Collaborated with VPs, CEO, and product leads to align design with vision and goals.
- Led Play Store asset strategy and created winning localized **ASO graphics** via A/B testing.
- Mentored a team of designers and implemented a centralized design system.

EXPERIENCE

Senior Graphic Designer

Technest

07/2020 - 02/2023 Islamabad, Pakistan

- A design company focused on mobile applications.
- Designed mobile products from scratch, contributing to **10M+ downloads**.
- Built design flows, interfaces, and marketing visuals for Play Store and **user acquisition**.
- Conducted market analysis and user testing to drive product improvements.

Graphic Designer

Jolta Technologies

01/2017 - 01/2019 Islamabad, Pakistan

- A tech company focused on producing visual content and applications.
- Designed and launched multiple mobile apps and games, including **Photex**, achieving 20-40% user growth.
- Interpreted BRD/SRS/FRS to deliver thoughtful and intuitive experiences.
- Worked with ASO teams to design Play Store visuals and icons for diverse audiences.
